

Workshop: Renewable energy for your home

Promotional text for use in your internal newsletter or on your intranet

Register now: Renewable energy for your home workshop

Thinking about renewable energy technologies like solar panels or a heat pump for your home? This workshop is your opportunity to explore the benefits of going green, reducing your carbon footprint and saving on energy bills.

Learn about the different renewable energy options available, how they can make your home more energy efficient, and the financial support available to help with installation costs. We've partnered with [Home Energy Scotland](#) for this workshop. Here are the details:
